Designs

- Design means only the features of shape, configuration, pattern or ornament or composition of lines or colour or combination thereof applied to any article, whether two dimensional or three dimensional or in both forms, by any industrial process or means, whether manual, mechanical or chemical, separate or combined, which in the finished article appeal to and are judged solely by the eye.
- Design does not include any mode or principle or construction or anything which is in substance a mere mechanical device, and does not include any trade mark, as defined in Section 2 (v) of the Trade and Merchandise Marks Act, 1958, property mark or artistic works as defined under Section 2(c) of the Copyright Act, 1957.
- Valid for 10 years, extendable by 5 more years.
- Industrial Designs are of great commercial value because shape or configuration of the article can often be a great selling point

Some leading cases :-

Owner of Industrial Drawings under Copyright Act held entitled to the machine reproduced by copying thereof

Subhashchandra Shavjibhai Padasunbiya v. State of Gujarat, 2018 SCC OnLine Guj 1371, decided on 03-08-2018]

The Court concluded by directing to hand over the possession of the machine to the applicant by affixing the seals at the earliest and disposed of the criminal case.

If a creative person steals your idea, he's killing his creative ability, if he steals your art, he's killing his art, if he makes it available to the world, it won't create the impact you could have created, because it wasn't from the right source."

-Michael Bassey Johnson
